SitOnIt Expands Fabric Options for Glove Active and Glove Executive Seating

Cypress, CA (February 2006) – Now available in fabric options, Glove Active and Glove Executive chairs from SitOnIt Seating feature fresh new options to complement traditional and contemporary offices.

Classically designed, Glove offers a range of controls to meet executive, conference and task applications. Maximum comfort and support is achieved by combining an ergonomically designed one-piece shell and soft, highly resilient foam. Glove's ultra-soft seat design cradles for comfort and fit. Built-in lumbar support and a waterfall seat provide low back support and promotes circulation.

The new option features fabric upholstery only on the seating surfaces and back over flap. The remaining surfaces can be covered in one of two options, ballistic nylon or ebony air mesh. This dual-material approach provides extended durability and enables SitOnIt to offer a wider range of fabric selections.

Existing options for Glove upholstery include full leather, leather/vinyl or leather/ballistic nylon. Offered with a lifetime warranty, Glove ships in just five to 10 days. See how well Glove will fit in your office environment by calling 888-274-8664.

About SitOnIt
