SitOnIt Seating Announces New Upholstered Options for Relay

Cypress, CA (April 2007) - Long recognized for high performance, low maintenance, and lasting comfort, Relay adds an upholstered option to its long list of features.

Relay's seat and back are molded from high-impact thermoplastic - available in six designer colors - for long-lasting durability. Now, users have the option to add an upholstered seat or an upholstered seat and back combination for even longer-lasting comfort. Relay is available upholstered in SitOnIt's 235 textiles.

Ideal for training rooms, conference and lecture spaces, computer labs, cafeterias, and convention halls, Relay accommodates a variety of functional and aesthetic needs. Task, guest, and nester models include a flexible back that supports users in a variety of positions.

Relay is available with or without arms and can be ganged together for clean alignment and efficient space planning. Flip-away arms allow users to stand up and sit down without 'catching' themselves on the arms. Guest chairs stack and nest for compact storage.

Relay ships in just 2 to 5 business days and offers a lifetime warranty. For more information on this versatile chair, call 888-274-8664.
