LARGE PROJECT MANAGEMENT

Streamlined Solutions for Every Large-Scale Project

What Makes Us Different?

Our Large Project Management Team is your trusted partner for handling complex, large-scale projects. With years of expertise and a proven track record, we ensure every project is delivered seamlessly and on schedule, setting us apart in the industry.

- Offering presale support to ensure we fully understand the customer’s requirements
- Proactive and transparent communication at every stage
- Expertise in managing complex logistics and delivering innovative solutions when challenges arise
- End-to-end support for projects exceeding \$150K list

Our Large Project Management Model

Our evolution from quick-ship custom chairs to comprehensive turnkey solutions has paved the way for handling today’s large-scale, multi-faceted projects. The modern Large Project Management Model integrates advanced tools and processes for streamlined execution.

Traditional Model:

- Rapid small-order fulfillment
- Single factory orders
- Short-term shipping

Modern Model:

- Multiproduct, multisite coordination for large projects
- Specific delivery dates and proactive monitoring
- Real-time tracking and updates leveraging advanced technology

Large Project Management Advocates

Each member of our Large Project Management Team plays a vital role in ensuring your project’s success, combining expertise and dedication to meet your needs.

Presale Project Specialist (PPS): Collects critical project details to eliminate delays and ensure a clean order submission.

- Runs a Presale Order Fulfillment Check (POFC), which confirms part availability against delivery date requirement.
 - Proactively reviews COM/COL or fabric compatibilities with product approvals on the product that is ordered.
- Validates that the TVR is current with the products ordered and valid.
 - Provides truck capacity assessment for project.
 - Notifies Finance early on regarding credit requirements.

Large Project Management Specialist (LPMS): Manages projects post-order, serving as the primary contact for seamless coordination.

- Facilitates communication and manages the resources working on the order.
 - Proactively maintains alignment at every stage of the order fulfillment process.
 - Manages risks, anticipates any potential issues, and implements strategies to minimize their impact on the order’s success.
- Provides regular updates regarding order status, including shipping and delivery details.
 - Follows up post-installation and requests a survey.

Meet the Team

Our Large Project Management Team combines expertise, dedication, and a passion for precision.
