

### AMPLIFY CONTRAST STITCHING: Customized accents for a very affordable office chair.

Designers like the creative flexibility they get from contrast stitching.

Contrast stitching adds stylish detail, texture and sophistication to an office chair. Highly contrasting threads can be stitched onto solid fabrics for a bold statement, or slightly different shades of thread and fabric can be paired for a more subtle appearance. The look is a great way to bring more design and style into the office.

Amplify features contrast stitching in ten different colors. Amplify is the only office chair in its price range to offer so many thread colors that can go with any solid-color fabric. Thread colors are: apple, desert, electric blue, fire, fog, lemon, navy, nickel, onyx, and white. They are available with any SitOnIt Seating solid-color carded fabrics, including leather and vinyl.

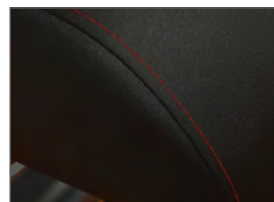

Apple

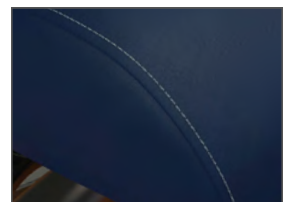

Desert

Electric Blue

Fire

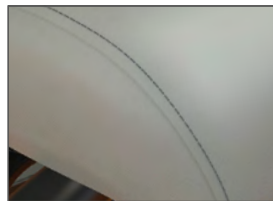

Fog

Lemon

Navy

Nickel

Onyx

White

*Amplify Highback*

*Amplify Midback*

## NO UPCHARGE

Best of all, all ten new thread colors can be ordered at no additional charge. Contrast stitching for Amplify is available now, for Amplify mesh back chairs. Samples can be viewed at [www.sitonit.net/amplify](http://www.sitonit.net/amplify).
