### Built for durability & versatility.

The transitional design for Freelance side chairs works well in lobby areas, workstations and of offices. The comfortable, curved seat and structural integrity has made it a high demand, multipurpose chair. Two frame/arm finish combinations create variety. Add casters or arms, a book rack or tablet arm for ultimate mobility and flexibility in training rooms and collaborative spaces. Freelance is a broad collection of 4-leg, bariatric chairs, counter and bar stools.
