# LIGHT TASK CHAIR ASSEMBLY INSTRUCTIONS

## 1 BASE INSTALLATION

## 2

## 3

## STEPS

1. Slide the cylinder (for task or for stool) into the center of the base and give it a push to seat it into position.
2. For stool version: Slide the foot ring over the cylinder until it is in the desired position. Follow the instructions in the foot ring package to tighten into place.
3. With the base assembly sitting on the floor, firmly hold the seat and back assembly, align the mechanism's cylinder mounting hole with the top of the cylinder and push in place until seated. The cylinder is seated when you can lift the chair and the cylinder stays attached to the mechanism.
