Unmatched Matching®

Textiles can be everything. With the right fabrics, you can provide atmosphere, create cohesiveness and offer an unforgettable experience across many spaces and places.

Fabric color, alignment, texture, orientation and pattern all play a part—and need to line up or match perfectly (especially with field-replaceable parts). With PatternMatch and pattern orientation, you can rest assured that every part of every chair can be traded out easily without disrupting design.

PatternMatch®

We ensure that design elements of the back, seat and arms match and/or align between seat and back. The patterns or lines also match unit-to-unit.

Pattern Orientation

All fabric (vertical, horizontal or bi-directional pattern) will be applied in the direction shown on the fabric manufacturer's website, unless otherwise specified.

To ensure desired fabric direction, use the Custom Upholstery Order Form on 20 and check the appropriate box under the "Pattern Orientation" section.

When we apply a textile pattern with lines at a 90-degree angle (vertically and/or horizontally) to the back and seat of a chair, we strive to achieve full alignment. Some small variations can occur due to the shape and size of the product. Pattern Orientation is standard for SitOnIt Seating.

Multi-Upholstery

The multi-upholstery option allows one fabric to be selected for the back and a different fabric for the seat. Multi-upholstery lounge pricing is different than multi-upholstery pricing for task and side seating.

TASK AND SIDE

- Upholstery pricing is based on both seat and back being the same textile. If the material is COM/COL or more than one textile is used:

If two fabrics of the same grade are chosen,

one grade level will be added to the upholstery price.

Example: grade 4 for the seat and a different grade 4 for the back, the upholstery price will be grade 5 for both.

If two fabrics of different grades are chosen,

the final upholstery price will be based on the highest grade.

Example: grade 2 for the seat and grade 3 for the back, the upholstery price will be grade 3 for both.

The above upcharges only apply to chairs that have both the seat and back upholstered.

LOUNGE AND CORA

- A standard upcharge applies to all multi-upholstery orders. Different fabrics and grades may be combined because each back, seat, arm and valance are separately priced.
- Add the single multi-upholstery upcharge to the cost of the components. Example: upcharge + any grade price for the seat + any grade price for the back + any grade price for the arm.

Moisture Barrier

Accidents happen. To help protect your investment, moisture barrier for seats and backs is an option on all lounge seating products.

Specify moisture barrier seats and/or backs in the Material section of the Final Price Calculation worksheet or on your purchase order. Note that specification and pricing are separate for seat and back and apply to each single seat or back position.

CALIFORNIA PROPOSITION 65

California Proposition 65, also known as the Safe Drinking Water and Toxic Enforcement Act, is a law requiring businesses to notify Californians about significant amounts of chemicals in the products they purchase for their homes or workplaces, or that are released into the environment. By providing this information, Proposition 65 enables Californians to make informed decisions about protecting themselves from exposure to these chemicals. Chemicals included on the Proposition 65 list are those that are known to cause cancer, birth defects or other reproductive harm.
