

# HEALTHIER HOSPITALS

The Healthy Interiors goal of the Safer Chemicals Challenge requires participating hospitals to ensure that 30 percent of the annual volume of furnishings and furniture purchases (based on cost) eliminate the use of formaldehyde, perfluorinated compounds, polyvinyl chloride (PVC), antimicrobials, and all flameretardants.

The SitOnIt Seating and IDEON products listed below meet the Safer Chemicals Challenge 2.0 of the Healthier Hospitals (December 2016) when configured as follows.

- Products must be ordered with one of the HH compliant textiles listed in this document. Several textiles from our textile partners may not qualify, nor can we assume responsibility for Customer Owned Materials (COM)
- Products must not be ordered with the CAL133 option

A PRACTICE GREENHEALTH PROGRAM

## SitOnIt Seating

TASK CHAIRS		EXECUTIVE CHAIRS	SIDE CHAIRS	STACKING CHAIRS
Amplify	Novo	Glove	Achieve	Anytime
Focus	TR2	Prava	Focus Side	InFlex
Knack	ReAlign		Freelance	Lumin
Leader	Sona		Movi	OnCall
Messenger	Torsa		Social	Relay
Non Stop	Wit			Rio
				Rowdy

## IDEON

LOUNGE SEATING	MULTI SEATING
Arioso	Aviera Metal
Composium	Aviera Wood
Nano	
Visit	

Furniture described herein meets the Healthy Interiors goal of the Safer Chemicals Challenge. Practice Greenhealth does not verify manufacturer information.

# HEALTHIER HOSPITALS

The Healthy Interiors Goal requires participating hospitals to ensure that 30 percent of the annual volume of furnishings and furniture purchases (based on cost) eliminate the use of formaldehyde, perfluorinated compounds, polyvinyl chloride (PVC), antimicrobials, and all flame retardants. SitOnIt Seating and IDEON products ordered with one of the HH compliant textiles listed in this document meet the following product attributes:

## 1. FORMALDEHYDE

New furniture and furnishings must be tested in accordance with ANSI/BIFMA Standard Method M7.1-2011. Comply with ANSI/BIFMA e3-2011 Furniture Sustainability Standard, Sections 7.6.1 and 7.6.2.

## 2. PER- AND POLY-FLUORINATED COMPOUNDS (PFCS)

Products supplied must not use stain- or water-repellant treatments that contain aPFC, including perfluoroalkyl or polyfluoroalkyl substances, fluoropolymers, perfluoropolyethers, or side-chain fluorinated polymers.

## 3. POLYVINYL CHLORIDE (PVC)

Products supplied must not contain polyvinyl chloride (PVC), or vinyl.

## 4. ANTIMICROBIALS

Products supplied must not contain triclosan and triclocarban. No other added or built-in chemical antimicrobials are allowed unless they are registered with the U.S. EPA under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), and have published data that show efficacy in a hospital/clinical setting measured by a reduction in healthcare-associated infections (HAIs).

## 5. FLAME RETARDANTS

Products supplied must contain less than 1000 ppm of intentionally added flame retardants by weight of the homogeneous material where code permits. When flame retardant chemicals are necessary to meet code requirements, use chemicals that meet GreenScreen Benchmark 3 or 4 or their equivalent.
