## 2019 Price Guide

September 16, 2019

## **CALIFORNIA BORN AND BRED**

We're a leading manufacturer of commercial solutions in the U.S. – and #1 in task chairs. From tables and lounge to screens and more, we've been the go-to destination for comprehensive, build-to-order solutions for almost 25 years. We combine award-winning design with the fastest lead times around (choose from 2-, 5- or 10-day shipping). We can build almost any specification you want, deliver it when you need it and offer a price no one can match. It's all part of our indie California spirit and drive to help you do more.

## **DESIGN THAT GETS YOU**

Discover seating engineered around you. Experience responsive design, supreme comfort and hyper-customizable features—all at value-driven prices.

## **OUR BUILD-TO-ORDER PROMISE**

Custom-designed chairs, no waiting. Our nimble size and lean manufacturing operation means we can ship build-to-order chairs in just two days.

## **FASTEST SHIPPING IN THE INDUSTRY**

Choose from two, five, or 10 day shipping. We cut lead time, sync orders and avoid off-schedule shipments at a rate our competitors just can't match.

## **WORLD-CLASS SERVICE**

We're proud to announce that the Office Furniture Dealer Alliance voted for us as "Best Customer Service" three times in the past five years.

## APPLICABLE PROVISIONS TO ALL PRODUCTS AND SERVICES

The Company will repair or replace with a comparable product, at its option, without charge to the original purchaser, only defective products or parts found defective during the Warranty Period. If requested by the Company, the original purchaser must return the part or product with freight or other shipping charges prepaid.

This warranty shall be effective for the applicable time period beginning from date of purchase as shown on original purchaser's original receipt or other proof of purchase.

For products purchased on or after August 1, 2012, the Company shall pay for all labor costs pre-approved by the Company. The payment of such pre-approved labor costs will be in the form of a credit to an active Company account.

There are no other warranties, expressed or implied, other than those specifically described, including, without limitations, any implied warranty or merchantability or of fitness for a particular purpose. The Company will not be responsible for incidental or consequential damages. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights and you may have other rights which vary from state to state.

Warranty claims must be reported within 60 days of any concealed damage. The Company will advise you of the procedure to follow when making warranty claims. Call the Company at the number below to explain the defect. Give your name, address and telephone number. Please be prepared with the model number and sales order number found under the seat of the chair.

# SUSTAINABLE DESIGN

We make it easy to go green. Design an eco-friendly room from the ground up or upgrade an existing space to meet the latest environmental standards.

## ANSI BIFMA

### ANSI/BIFMA CERTIFIED

SitOnIt Seating is a member of the Business and Institutional Furniture Manufacturer's Association (BIFMA). Tests developed by BIFMA are approved by the American National Standards Institute (ANSI) to determine the strength and durability of seating. Although testing is not a warranty or guarantee, our task, side and lounge products meet or exceed BIFMA and ANSI standards.

### LEED CERTIFIED

Earn points toward LEED certification thanks to our U.S. manufacturing location and our use of recycled materials where possible.

### GREENGUARD CERTIFICATION

All SitOnIt Seating lounge and seating products met the rigorous criteria required by GREENGUARD Gold in accordance with the Collaborative for High Performance Schools.

the sustainability certification program for furniture

### LEVEL CERTIFIED

Sustainability matters. That's why we've worked to achieve BIFMA level® certification for all task chairs, side chairs and lounge products.

### THE TAKE BACK PROGRAM

SitOnIt Seating helps minimize product waste by connecting our customers and dealers with third-party groups who redirect materials that would be headed for the landfill to local nonprofits and public agencies.

### WE DID OUR HOMEWORK

Download detailed documents that break down the percentage of recycled content, manufacturing processes and indoor air emissions for every chair we make.

# ORDERING INFORMATION

## PRICING

All prices are suggested retail and are subject to change without notice. Visit our websites or contact Customer Experience for the latest pricing. Prices in effect at the time of shipment will prevail. We reserve the right to make changes in prices, models, fabrics, finishes, materials and specifications and also discontinue models and options at any time without notice.

## ORDERS

Specify model number, quantity, desired delivery date and all other applicable information. Order templates can be found in the applicable Price Guide. Orders will be accepted with an acknowledgment form governing the transaction. In the event an error is made in the manufacture of the product, the acknowledgment will be used as the resolution document. Submit orders by email or fax:

### SITONIT SEATING

Email: [purchaseorder@exemplis.com](mailto:purchaseorder@exemplis.com)  
Fax: (714) 995-4855

## MINIMUMS

### TASK AND SIDE CHAIRS

There is no minimum requirement. Standard transportation freight costs are included in the price of the product.

### LOUNGE

The freight program is designed to be delivered freight prepaid to the designated consignee, based upon a minimum of three or more items. If the shipment does not meet the minimum unit requirement, a surcharge of \$95 net per shipment will be assessed.

Multiple orders for lounge products may be combined to meet the three-piece minimum requirement, as long as all items are shipping on the same day to the same delivery location. Due to different carriers and shipping methods, lounge products cannot be combined with task or side chairs to meet the three-piece requirement.

### TABLE SURFACES

Any order containing surfaces must have a minimum quantity of four or order will incur a \$95.00 freight fee.

## QUANTITY DISCOUNTS

Quantity discounts for CAL 133 textiles and some shipping methods are available. See the appropriate Price Guide or contact Customer Experience for more information.

## CHANGE ORDERS

Orders that have been scheduled for production may not be changed. All changes on customer orders previously acknowledged must be requested in writing and are subject to approval. Requests for changes are not deemed accepted until acknowledged. In the event a revision is accepted, change fees may apply.

## LEAD TIME

We have thousands of carded textiles—including vinyl and leather—that ship in two, five or 10 days. For a complete listing of textile lead times, see the Carded Textile Program section of the [Textile Reference Guide](#) or visit the [Materials tab](#) on our websites. Graded-in, COM and COL orders start production when the textile arrives from the manufacturer. Because of this the lead time on Motif screens or upholstered chairs is two, five or 10 days based on the textile selection.

Orders received by 10 a.m. Pacific Standard Time begin assembly the next day. Orders that are "On Hold" will begin production only when all holds are released. Types of holds include:

- Credit Hold for issues related to billing and invoicing.
- Incomplete Hold if the purchase order is incomplete or illegible.
- Pricing Hold if the price on the purchase order does not match the pricing shown in the Price Guide or in our computer system.
- New Fabric Hold for nonstandard textile orders without an inventory part number.
- Graded Hold is placed by the Purchasing Department while confirming delivery of graded fabric from the vendor.

Customer Experience will notify you of any holds placed on your order.

# ORDERING INFORMATION

## PRODUCT MODIFICATION

Special requests are available and additional charges will be determined per quotation. Up to five working days are required after the special request is received to prepare a quotation. Contact Customer Experience for details.

## ORDERS FOR PARTS

Multiple shipments may occur for orders that include parts. Hardware such as casters or cylinders will ship separately from items requiring upholstery or manufacturing labor. Multiple shipments will also occur if an order combines both parts and new chairs.

## PRODUCT AND DESIGN CHANGES

We reserve the right to discontinue product lines, models and parts at any time. We also reserve the right to make changes in design and material when such action is deemed to be an improvement in design, function and/or construction.

## CANCELLATION AND RETURNS

Orders that have entered any stage of production cannot be canceled. Request for cancellations are not accepted until acknowledged. In the event a cancellation is accepted, cancelled charges may be imposed for the entire amount of the order. Authorization for return must be requested from and approved by Customer Experience prior to the return of the merchandise. Returns may be subject to a restocking charge equivalent to 40% of the net order plus freight. Unauthorized returns will not be accepted.

## SHIPPING

Standard shipments are made via common carrier, unless otherwise specified. Special routing requests made by the customer or the consignee may result in additional charges.

Standard deliveries are dock-to-dock and are scheduled to occur Monday through Friday between 8 a.m. and 5 p.m., based on our published transit times. We will not be held responsible for issues or costs arising from carrier transit delays, missed delivery appointments, etc.

We reserve the right to charge for nonstandard customer delivery requirements that may include order deliveries, inside deliveries, etc. For information concerning these charges, contact Customer Experience.

## FREIGHT TERMS

Freight terms apply to the continental U.S. only. This excludes Alaska and Hawaii. All standard transportation services and freight costs are included in the price of our products. We ship freight prepaid and allowed, FOB and origin.

Shipments outside the contiguous U.S. are shipped to the point of embarkation free of charge, if the shipment meets the minimum requirement. All subsequent freight charges will be at the customer's expense, shipped collect.

Because of the fluctuation of fuel prices, we reserve the right to impose fuel surcharges for any shipments.

## FREIGHT DAMAGE

We are not responsible for product damage occurring in transit or during storage. Before accepting a shipment from the carrier, carefully review the packing list and inspect the quantity and condition of the items. Promptly document all visible damage on the Bill of Lading and request a carrier inspection of the product. In the event of damage, accept the order and contact Customer Experience for issue resolution. Concealed damage must be reported in writing within 15 days of accepting delivery. We will take all reasonable steps to assist customers in resolving claims for loss or damage.

## SMART DELIVERY

Smart Delivery provides precise order delivery within a customer-specified date and time window. This special service is available in the contiguous U.S. and includes inside delivery, non-dock delivery, weekend delivery and residential delivery.

Requests must be made prior to an order being scheduled for production. A Smart Delivery fee will be added to the original order invoice. Any changes to a submitted Smart Delivery order will require a new Smart Delivery quote request. Not all change requests can be honored. Changes to an order will result in delays and/or additional costs once the order is in transit.

The Smart Delivery fee will be refunded if the shipment does not arrive within the specified delivery window. We will not be held responsible for costs or damages associated with delayed deliveries.

Please contact Customer Experience to request a Smart Delivery quote or for more information.

## WILL CALL

Customers with Will Call orders will be notified once orders are ready to be picked up. Customers will have three business days from notification to pick up the order. If the order is not picked up within this time frame, storage charges will start at a rate of \$30 per business day until the order has been claimed.

## INVOICING

Invoicing is triggered when the product ships.

# CAL 133

Fire safety is a top priority for us. SitOnIt Seating strongly supports CAL 133 standards and makes it easy for designers and buyers to specify CAL 133 chairs.

## TB 117

Under California law, all upholstered furniture must meet TB 117-2013 by January 1, 2015. At a minimum, all SitOnIt Seating fabrics, vinyl, leathers and resilient filling material (i.e., foam and Dacron) meet TB 117-2013. Unlike TB 117-2013, which tests only the inner upholstery components, with CAL 133 the entire piece of furniture must withstand ignition from a gas burner inside a testing chamber.

## WHAT IS CAL 133?

CAL 133 is a standard of furniture flammability started by the California Bureau of Home Furnishings and Thermal Insulation for furniture used in public buildings such as healthcare facilities, convalescent homes, public assembly areas of hotels and motels, hospitals, board and care homes, stadiums, licensed child care facilities, prisons and jails.

Notice: Starting January 1, 2020, the State of California changed regulations to ban flame retardants in upholstered furniture sold in California. We anticipate further regulatory changes in other states. The TB-133 barrier used in our products is a flame-retardant fabric designed to pass open-flame testing protocols. The cotton/fiberglass knit is infused with a phosphorus flame retardant and coated with a chemical that expands in heat to create a physical flame barrier. The TB-133 barrier material that we use in our products is free of halogenated flame retardants, Polybrominated diphenyl ethers (PBDE), Formaldehyde, and Antimony.

## CHOOSING CAL 133 TEXTILES

Consult the individual SitOnIt Seating fabric cards to review the specifications for each fabric offered. Because we offer such a vast array of fabrics with varying degrees of flame retardancy, we suggest you consult the published technical data of the fabric supplier when making your fabric selection.

Specify CAL 133 textiles in the Material section of the Final Price Calculation worksheet or on your purchase order.

SitOnIt Seating assumes no responsibility for the flame retardancy of any customer-provided textile.

## CAL 133 TESTING

CAL 133 is a full-scale fire test for furniture manufactured for use in public buildings. The standards do not specify how to construct furniture, but only how it should perform when tested. To pass this fire standard test, a fire blocking liner is sandwiched between the foam and the fabric of our chairs. This liner acts as a fire extinguisher by smothering the flame.

COM/COL compliance for CAL 133 models listed above can be determined by specifying upholstery with the exact characteristics as approved SitOnIt Seating fabrics and leathers or by conducting a full chair burn test. The nondiscountable test fee for each chair-textile combination is \$600 net plus the cost of the chair. The lead time for testing is four weeks.

## TASK AND SIDE CHAIRS/STOOLS

\$600

## LOUNGE

\$800

For more information on TB 117-2013 and CAL 133, visit the [State of California Department of Consumer Affairs](#) website.

## TO ORDER CAL 133

Allow a 10-day lead time. Clearly specify CAL 133 on your order. For each chair, add the appropriate additional charge.

## CAL 133 LEATHER

All carded leather is CAL 133 approved.

## CAL 133 PLASTIC

All our plastic chairs are CAL 133 approved except for our Achieve collection.

## CAL 133 TEXTILES

Over a thousand CAL 133 approved textiles in all grades, colors and styles are listed on the SitOnIt Seating website. Visit [sitonit.net](#) and search textiles by CAL 133 compliance, manufacturer, grade, lead time and other attributes.

## TO CHECK PURCHASED SEATING FOR CAL 133

To determine whether your current SitOnIt Seating chair meets CAL 133, or to check an order you have recently received, check the bottom of the chair seat pan for the label shown below. If your chair does not have this tag, your chair does not meet CAL 133.

# FABRIC

## Unmatched Matching®

Textiles can be everything. With the right fabrics, you can provide atmosphere, create cohesiveness and offer an unforgettable experience across many spaces and places.

Fabric color, alignment, texture, orientation and pattern all play a part—and need to line up or match perfectly (especially with field-replaceable parts). With PatternMatch, pattern alignment and pattern orientation, you can rest assured that every part of every chair can be traded out easily without disrupting design.

## PatternMatch®

We ensure that design elements of the back, seat and arms match and/or align between seat and back. The patterns or lines also match unit-to-unit. Standard for lounge products. Not standard for task or side seating.

## Pattern Orientation

All fabric (vertical, horizontal or bi-directional pattern) will be applied in the direction shown on the fabric manufacturer's website, unless otherwise specified.

To ensure desired fabric direction, use the Custom Upholstery Order Form on page 20 and check the appropriate box under the "Pattern Orientation" section.

When we apply a textile pattern with lines at a 90-degree angle (vertically and/or horizontally) to the back and seat of a chair, we strive to achieve full alignment. Some small variations can occur due to the shape and size of the product. Standard for SitOnIt Seating.

## Multiple Upholstery

The multiple upholstery option allows one fabric to be selected for the back and a different fabric for the seat. Multi-upholstery pricing is different for SitOnIt Seating.

### TASK AND SIDE

- Upholstery pricing is based on both seat and back being the same textile. Otherwise:
- If two fabrics of the same grade are chosen, one grade level will be added to the upholstery price. Example: grade 4 for the back, the upholstery price will be grade 5 for both.
- If two fabrics of different grades are chosen, the final upholstery price will be based on the highest grade. Example: grade 2 for the seat and grade 3 for the back, the upholstery price will be grade 3 for both.

### LOUNGE

- A standard upcharge applies to all multi-upholstery orders. Different fabrics and grades may be combined because back, seat, arm and valance are separately priced.
- Add the single multi-upholstery upcharge to the cost of the components. Example: upcharge + any grade price for the seat + any grade price for the back + any grade price for the arm.

## Moisture Barrier

Accidents happen. To help protect your investment, moisture barrier for seats and backs is an option on all lounge seating products.

Specify moisture barrier seats and/or backs in the Material section of the Final Price Calculation worksheet or on your purchase order. Note that specification and pricing are separate for seat and back and apply to each single seat or back position.

## COM/COL WARRANTY

Any textiles applied to furniture orders through the COM/COL process will not be covered under warranty by SitOnIt Seating. Any warranty claims for these upholstery materials will fall to the original vendor of the fabric. With a broad spectrum of harsh cleaning agents used by facilities, SitOnIt Seating recommends that the owner test each fabric selection with their specific cleaning methods before using. Additionally, SitOnIt Seating is not held responsible for receipt of defective fabrics, as we apply all COM as first-quality goods.

## CAL 117 POLICY

SitOnIt Seating assumes no responsibility for the fire retardancy of any COM/COL. Customers are solely responsible for making sure that their COM/COL complies with all applicable codes and regulations. For information on CAL 133, refer to page 15.

## COM/COL PROCESS

1. Visit the **SitOnIt Seating Textile Compatibility** tab on our website to see if your COM/COL textile has already been approved.  
  
(If your textile is already approved, skip to step 3.  
If it hasn't been previously approved, go to step 2.)
2. Send a 12" x 12" textile swatch to be tested for approval along with a completed COM/COL Test Request Form found on the next page.

Note: Freelance back, InFlex back, Focus Side back and Achieve back require 0.75 yards of fabric to be sent for testing.

Allow two business days once your textile is received for the test results to be available on the **SitOnIt Seating Textile Compatibility** tab on our website.

Send the textile swatch and form to:

SitOnIt Seating/  
Attn: COM Engineer  
6280 Artesia Blvd.  
Buena Park, CA 90620

3. If the COM/COL swatch is approved, fill out the Customer Upholstery Form located on page 16 and attach with your order.
4. Ship the necessary amount of COM or COL material and the purchase order number to:

SitOnIt Seating/  
Attn: COM Engineer  
6280 Artesia Blvd.  
Buena Park, CA 90620

## COM/COM EXCESS YARDAGE

SitOnIt Seating is not responsible for yardage submitted to us beyond the required amount. Excess COM/COL materials will be discarded at the discretion of SitOnIt Seating unless otherwise instructed by the customer at the time the order is placed. If a customer requires the COM/COL excess yardage returned, they must contact Customer Experience to make arrangements. The customer will be responsible for delivery charges.

# COM CALCULATION

## STEPS TO CALCULATE COM YARDAGE

1. Determine which products are being ordered as COM.
2. Find the yardage needed to upholster those products from the COM Yardage Requirement charts.
3. Adjust the yardage requirement total based on the repeat of the fabric roll using the COM Repeat Calculation table.
4. Take the final calculation and round up to the nearest half-yard to get final yardage.

For orders of 10 or more seats, contact Customer Experience for further quoting.

## COM CALCULATION EXAMPLE

Below is a hypothetical scenario for how total COM yardage should be determined. This example is for a patterned textile that has a repeat.

### STEP 1: DETERMINE WHICH PRODUCTS ARE BEING ORDERED AS COM

For this example order, we'll assume we need to order: 20 units of Freelance 4-leg — backs only

### STEP 2: DETERMINE THE COM YARDAGE REQUIREMENT

Looking at the COM Yardage Requirements chart that begins on 23, we see that the following yardage amounts are needed for each product:

Freelance 4-leg chair back = 0.94 yards.  
Now we multiply 0.94 yards by the 20 chair backs and we get a total of 18.8 yards.

### STEP 3: ADJUST THE YARDAGE REQUIREMENT TOTAL BASED ON REPEAT

Since the textile we've chosen is a pattern with a repeat, we should look at the repeat calculation table on page 22 to determine our multiplier. For this example, let's assume our repeat is 11" and we're upholstering the fabric vertical/off-the-roll. Based on the table, the multiplier is 20%. Now, we need to take the 18.8 yards from step two and increase it by 20%. An easy way to calculate this is by multiplying 18.8 by 1.2, which gives us 22.6 yards.

### STEP 4: ROUND TO GET THE FINAL AMOUNT NEEDED

To determine how much yardage is needed to complete this order, we take the amount from step three and round it to the nearest half-yard. In this case, that means the customer needs to send SitOnIt Seating/23 yards to complete this order.

### STEP 5: SUBMIT ORDER

Please allow five business days once the fabric is delivered for your test results to be available on the SitOnIt Seating Textile Compatibility tab of our website. If you need further assistance, please contact Customer Experience at (877) 994-3366.

# COM REPEAT CALCULATION

Yardage requirements listed in this document are based on textile bolts/rolls that are 54" wide.

Please contact Customer Experience if goods are a width other than 54".

Please use the guide below to calculate the percentage of extra upholstery required to cover large repeats.

REPEAT	RAILROADED/HORIZONTAL OR VERTICAL/OFF THE ROLL
5.1"- 7"	10%
7.1"-10"	15%
10.1"-14"	20%
14.1"-20"	30%
20.1"-27"	45%

# COM/COL YARDAGE REQUIREMENT

Combining upholstery is an option on all SitOnIt Seating upholstered products. Below are tables outlining the fabric or vinyl requirements for the entire chair as well as individual pieces. All yardage requirements are quoted in terms of yards for fabric or vinyl and feet for leather. Please contact Customer Experience for order quantities greater than 10 seats.

# CUSTOM FINISH PROGRAM

## PRICING

First-time custom stains must be approved before acceptance of an order. A one-time net fee applies if stains are not in our library. Thereafter, a stain-to-match upcharge is applied to each chair.

### TASK AND SIDE CHAIRS

Stain not in our library: \$350 Net

Stain-to-match upcharge: \$55 List

### LOUNGE

Stain not in our library: \$275 Net

Stain-to-match upcharge: \$70 List

## APPROVAL PROCESS

Since all new stains must be approved before they can be applied to seating or tables, allow extra time for custom finishes. Custom finishes generally require at least one to two weeks to create a matched sample. We will need a signed Approval Form before we can accept your order. We reserve the right to decline the opportunity to match a finish color.

1. Send a 3" x 4" or 4" x 6" sample of the stain, along with the model numbers and options to which the finish will be applied, to:

Customer Experience  
Custom Finish Program  
6415 Katella Avenue  
Cypress, CA 90630

Include dealer name, contact and project reference.

2. Once approved, we will send a finish sample to you along with any caveats that may apply. We will keep an identical sample in our files for future orders. Custom finishes generally require at least a week to create a matched sample.
3. Carefully review the sample. Note the STAIN ID# (example: SM#070214-1); this will be needed for your order. Return the signed approval form to Customer Experience along with your order. We need your approval before we can accept the order, schedule it for production or acknowledge a ship date.
4. Lounge orders using our stain-to-match program will have a lead time of 15 days.

## ORDERING

When ordering, enter the approved STAIN ID# in the Material section of the Final Price Calculation worksheet or on your purchase order.

## CUSTOM FINISH TERMS AND CONDITIONS

Wood is inherently beautiful because of natural variations in color, grain and texture. There may be minor differences from one chair to the next, even though they are finished at the same time. We cannot guarantee exact matches of grain or natural wood color.

# CARE AND CLEANING

## SAFETY FIRST

To ensure proper cleaning and/or disinfecting, it's important to consult with facilities or safety personnel and follow the manufacturer's instructions—including detailed dilution requirements, safe application instructions, dwell time for effective disinfecting and more.

Per CDC instructions, always read and follow the directions on the label to ensure safe and effective use.

- Wear skin protection and consider eye protection for potential splash hazards
- Ensure adequate ventilation
- Use no more than the amount recommended on the label
- Use water at room temperature for dilution (unless stated otherwise on the label)
- Avoid mixing chemical products
- Label diluted cleaning solutions
- Store and use chemicals out of the reach of children and pets

**Always read and follow the directions on the cleaner/disinfectant labels to ensure safe and effective use.**

## CLEAN + DISINFECT

Cleaning and disinfecting are two distinct actions, and knowing the difference between the two can help promote safety in any space. This comprehensive, 2-step process requires cleaning before disinfecting.

## CLEAN

### CLEANING REMOVES GERMS

- The act of removing visible dirt and debris from objects or surfaces
- Cleaning works by using soap/detergent with water to remove impurities from surfaces either manually or mechanically
- Cleaning does not kill germs, but by removing them, it lowers their numbers and risk of spreading infection

## CLEAN (CONT.)

### CLEANING GUIDELINES AND TIPS

- Start by lightly dusting with a soft, grit-free cloth or chamois (no wiping)
- After dusting, dampen cloth or chamois with a solution of mild, non-abrasive liquid soap and water
- Wipe clean and dry with a soft, grit-free cloth, sponge or chamois
- Avoid using abrasive cleaners and steel wool to prevent scratching
- Test any cleaning method or agent in an inconspicuous area of the surface

## DISINFECT

### DISINFECTING KILLS GERMS

- This process comes after a surface is cleaned
- Disinfecting kills germs on objects or surfaces with the use of chemicals
- Most common disinfectants include one of the following active ingredients: Quaternary Ammonium (Quats), Sodium Hypochlorite (Bleach), Hydrogen Peroxide, or 70% Isopropyl Alcohol
- EPA-registered disinfectants List N: Disinfectants for Use Against SARS-CoV-2

### DISINFECTING GUIDELINES AND TIPS

- Follow the disinfectant manufacturer's instructions when applying the agent
- Once finished, remove all disinfecting agents from the surface with water and a grit-free, then dry
- If not properly removed, disinfectant residue could degrade product life and appearance

**Cleaning + Disinfecting efforts should be part of an organization's comprehensive systems-based approach to provide a safe and sustainable workspace.**

# CARE AND CLEANING

## CLEANING OUR HARD SURFACES

Over 95% of the hard surfaces on our products can be cleaned/disinfected using any one of the four primary ingredients listed below.

- Bleach (Sodium Hypochlorite)
- Hydrogen Peroxide
- Quaternary Ammonium Compounds (Quats)
- 70% Isopropyl Alcohol

### EXAMPLES OF HARD SURFACES THAT CAN BE DISINFECTED:

- Plastics (i.e. polyurethane and acrylic)
- Solid surface
- Metals
- Painted Surfaces
- Laminate

### EXCEPTIONS:

- Markerboard
- Veneer
- Wood Surfaces

## CLEANING OUR SOFT SURFACES

Our textiles and meshes offer a performance and cleaning story unmatched in the industry.

Our Carded Textile Program offers: over 700 bleach-cleanable fabrics through our SitOnIt Seating private label and partnership textile program.

### MESH:

- All of our mesh materials are bleach-cleanable. This determination is supported by 3rd-party results from completing AATCC 188 Colorfastness to Bleach testing where the subject material is submersed, and friction stirred in a diluted sodium hypochlorite solution.
- Cleaning of these materials varies. Check out the [Mesh Spec + Care Guide](#) on our website for more information.

### SEATING FABRICS:

- Soft surfaces on seating can vary widely from woven, knits and leather to coated textiles such as vinyl and polyurethane. Woven and knits tend to be more permeable than vinyl or polyurethane.
- Cleaning of these materials varies. For a list of our textile spec + care guides, see the [Materials Downloads](#) on our website.
- For a list of bleach-cleanable materials, see our [Carded Library](#) and select "Bleach Cleanable" under performance.

### SCREEN FABRICS:

- Cleaning of these materials varies. For a list of our textile spec + care guides, see the [Materials Downloads](#) on our website.
- For a list of bleach-cleanable materials, see our [Carded Library](#) and select "Bleach Cleanable" under performance.

# GLIDE GUIDE

For over 20 years, SitOnIt Seating products have been expertly designed to provide the best comfort and support in the industry.

Glides are an often overlooked element in the seating specification process, but they play a crucial role in ensuring proper interface between the chair and the floor.

This application guide offers general guidelines to assist customers with choosing the best glide for their needs. The guide is based on extensive lab testing and hands-on experience with selling chairs in a variety of environments, as well as review and consultations with glide experts.

**Acceptable** — Acceptable choice for this application based on our testing but consider BETTER or BEST options.

**NR** — Not recommended for this application based on our testing.

*This Application Guide is provided for informational purposes only. Always follow the manufacturer's instructions for care and maintenance of your flooring. Periodic inspection and maintenance of glides is critical to minimize the risk of damage to your flooring, especially when using glides with floors that are prone to scratching and marring. Testing was performed under simulated conditions. Because a wide range of factors impact actual performance, including how your chairs are used; the state of the glides and flooring; and dirt, moisture and other environmental factors, Exemplis does not warrant you will achieve any specific result. Actual results may vary.*

# AMPLIFY

## MESH BACK TASK CHAIR

Sleek, aerodynamic lines give the Amplify collection power, with a look of modern design and sumptuous comfort. Midback and highback mesh chairs are available in multiple frame, arm and base colors. The mesh back features adjustable lumbar bands that provide optimum ergonomics. The comfortable mesh back model comes in 10 colors and the upholstered waterfall seat is available in 10 fabric or leather textile grades with optional contrast stitching. Amplify offers more built-in features than any other chair in its class, with enhanced synchro, height-adjustable arms and adjustable lumbar support all standard. The curvaceous profile and soft, textured arm pads make this a chair that delivers style as well as substance.

## COLLABORATIVE CHAIR

Mavic is here to prove that a jack-of-all-trades can be a master of all. Looks, features, function, comfort and more—there's so much Mavic offers in a single, light-scale seat that it crosses over into new territory. So when it's time to enable collaboration (wherever and whenever you need it), Mavic sits ready to provide a radical new way to work.

*Cross over  
collaboration.*

Zoom past the hurdles of getting together with a chair made for active collaboration. A swivel-tilt or weight-activated mechanism powers the 8-hour cushion on Mavic, helping you work with all-day sit-ability. And the slim, all-in-one frame with airy tension mesh keeps you light on your casters so that you can shift with ease.

# NON-STOP HEAVY DUTY TASK CHAIR

Non-Stop Heavy Duty is a powerful combination of durability and comfort for task-intensive environments. Non-Stop differs from the typical chair construction in that all mounting points—seat to mech, arms to seat and J-bar to back—are reinforced with heavy-gauge steel mounting brackets. These solid steel fasteners are second to none for reliability and ergonomic comfort in high-intensity environments where chairs perform all day, every day and support a wide range of users. This Heavy Duty chair is rated to accommodate users up to 500 pounds and easily handles the demands of 24-hour environments.

*Around-the-clock comfort.*

## CONFERENCE CHAIR

The Jorge Pensi-designed Prava chair has double-stitched detailing and revolutionary molded-foam construction. The midback model is ideal for conference room use while the highback is well suited for any executive. A plush foam cushion in the center of the backrest offers ultimate comfort. A wide array of comfort and control options are available including three arm styles, choice of swivel tilt, knee tilt or enhanced synchro adjustments and a headrest option. Modern and sophisticated with restrained elegance, Prava embodies the precise balance between refinement and comfort.

# MIKA

## MULTIPURPOSE CHAIR

The slim, simple, stackable, soft shell chair Mika sits above most others in its class – and not just because it was a “Best of NeoCon” silver award winner. Mika is elevated. Upholstered or non-upholstered, it reaches new heights in what a molded shell chair can be. From top to bottom, the design flows. Back and forth, the design rocks with 15 degrees of flex. Up and up, the design pushes an upholstered seat farther than ever before. And in the end, you arrive at a place of sit-ability and stack-ability hard to find in something that looks this good.

*Design above.*

## MULTIPURPOSE CHAIR, COUNTER AND BAR STOOL

What goes into an award-winning plastic chair? Patented flexing technology, for one. Add a fresh, modern color palette and an extra-slim, stackable frame and you've got a multipurpose seating solution that allows for more movement, day-long comfort and flexibility than any other chair in its class. Our complete family of Rio® models feature our patented Active Rebound Control (ARC) Technology®—a performance-minded flexor insert that supports a wide range of motion (20 full degrees to be exact) and responds precisely to the amount of weight pressed against it. The Rio is an easy choice for multi-use spaces that require quick set-ups and breakdowns. Discover a line engineered to allow for better movement, applications across more environments and a longer product life.

*Design that responds to you.*

## BENCHES AND OTTOMAN

This robust bench and ottoman collection complement all Composium lounge seating models. Three bench sizes—plus an ottoman—provide strategic accents for a functional and modular seating solution. An optional removable cushion and 10 foot styles make this line a comfortable and stylish soft seating choice. Composium is rugged and easy to maintain with field-replaceable parts and durable steel-rail construction in benches that withstands tough environments. Our PatternMatch expertise ensures that every chair is a perfect match.

*Perfect harmony.*

## GUEST LOUNGE SEATING

The Aviera collection was developed specifically for high-traffic areas. The stylish collection includes versatile guest, patient, bariatric and multi-seating, bringing new meaning to the term "customizable." Seats can be specified in 21", 24", 30" and 44" widths and there are two back types. Aviera linking tables round out the offering to create an ideal solution for high-traffic entry, reception, waiting and common areas.

Aviera beech and maple chairs are available in four wood-stain finishes, and metal chairs are offered in three powder-coat finishes. Tables come in wood veneer, solid surface or laminate tops with polymer edges. All Aviera wood surfaces feature a silver ion anti-microbial finish that inhibits the growth of mold, mildew and bacteria.

*High traffic. Low stress.*

## FREESPAN 2-SEAT MULTI-SEATING

The Aviera collection was developed specifically for high-traffic areas. The stylish collection includes versatile guest, patient, bariatric and multi-seating, bringing new meaning to the term "customizable." Seats can be specified in 21" and 24" widths. Mezzanine and linking tables round out the offering to create an ideal solution for high traffic entry, reception, waiting and common areas.

Aviera beech and maple chairs are available in four wood-stain finishes, and metal chairs are offered in three powder-coat finishes. Tables come in wood veneer, solid surface or laminate tops with polymer edges. All Aviera wood surfaces feature a silver ion anti-microbial finish that inhibits the growth of mold, mildew and bacteria.

*High traffic. Low stress.*

## START/CENTER/END LOUNGE SEATING

The Aviera collection was developed specifically for high-traffic areas. The stylish collection includes versatile guest, patient, bariatric and multi-seating, bringing new meaning to the term "customizable." Seats can be specified in 21", 24", 30" and 44" widths and there are two back types. Mezzanine and linking tables round out the offering to create an ideal solution for high-traffic entry, reception, waiting and common areas.

Aviera beech and maple chairs are available in four wood stain finishes, and metal chairs are offered in three powder-coat finishes. Tables come in wood veneer, solid surface or laminate tops with polymer edges. All Aviera wood surfaces feature a silver ion anti-microbial finish that inhibits the growth of mold, mildew and bacteria.

*High traffic. Low stress.*

## LINKING TABLES

Tables are like bridges joining chairs and multi-seating elements. Connect like items together or mix them up. For instance, a table can link to a guest or patient chair on one side and a pre-configured, freespan, start or end element on the other. In a start/center/end configuration, a table must connect to either a start or an end. End tables have two legs and 90° radius and square tables have one leg.

*High traffic. Low stress.*

### COLLECTION: PASÉA

GSA SIN #: 33721

It's time to rethink what a collection can be. Active working posture, gapless benches, movable ottomans and more make Paséa the go-to option for flexible common areas and transitional spaces.

#### FEATURES:

- Choose from a wide variety of benches, seats and ottomans
- Build using right- or left-angled, 90° or 120° benches and seats
- Configure rectilinear and curvilinear set-ups with modular seats and benches
- Promote an active working posture with built-in lumbar curve and comfort-scaled seat
- Create a comprehensive collection with large and small (mobile) ottomans
- Blend with any environment using graphite or slate base colors
- Add brilliant diamond-cut details with dual-upholstery options
- Provide extra convenience with power options
- The easy to connect and disconnect ganging brackets are field installed and slide over the existing glides. They can connect Pasea lounges, benches and tables
- 400 lb per seat weight capacity

## HOSPITALITY TABLES

We think simple is better, so we created a table with a straightforward design that installs in less than 10 minutes. We started with the isosceles triangle—an architectural shape used to promote stability. The triangular shapes within Tensor allow it to move to match the width and the depth of your top. With this extensive scalability, you can go from a larger meeting table all the way down to a smaller hospitality table.

## U-SHAPE DESKING

We think simple is better, so we created a table with a straightforward design that installs in less than 10 minutes. We started with the isosceles triangle—an architectural shape used to promote stability. The triangular shapes within Tensor allow it to move to match the width and the depth of your top. With this extensive scalability, you can go from a larger meeting table all the way down to a smaller hospitality table.

*The all-in-one solution.*

# TENSOR U-SHAPE DESKING

## CATEGORY: ALL-IN-ONE TABLE

Work should bring people together and foster collaboration. With Tensor, you can adapt to your ever-changing office needs. From individual desks to open concept collaborative spaces, Tensor is the first versatile solution of its kind that can adapt not just to the space but the entire office

- Patent-pending easy-to-size table support structure adapts to all spaces
- Steel dual-isosceles triangle design evenly distributes and supports weight throughout
- Minimalistic aesthetic with a below-the-surface configuration
- Installs in less than 10 minutes with pre-installed parts
- Desk tops range from 24" x 54" to 30" x 72" and your space can be further customized with a range of returns and bridges
- Supports up to 300 lb

# ARM STYLES AND ADJUSTMENTS

SitOnIt Seating offers a wide variety of arm styles and adjustments to accommodate all types of users doing a wide variety of tasks. The general adjustments for each arm type are described below. See the website or the product hang tag for specifics.

## Armless

Any discussion of arm styles must begin with armless. Armless chairs and stools are less expensive and are easier to get in and out of. However, they do not provide ergonomic support for long-term sitting and task functions.

*Every SitOnIt Seating collection offers armless chairs and stools, but the selection may be limited to specific models. For instance, Freelance multipurpose chairs and stools can be specified armless, but not Freelance bariatric chairs.*

## Fixed

As the name implies, fixed arms cannot be adjusted. Also known as loop arms, cantilever arms and other names, these arms are commonly found on side and multi-seating as well as basic task seating.

## Height-Adjustable

This is the most basic adjustable arm. The arm adjusts up or down. Height-adjustable arms are best for basic task work.

### Instructions

Height-adjustable arms may operate slightly differently for some collections:

#### Glove Active, Knack, Non-Stop Heavy Duty, ReAlign, TR2 and Vectra:

- To increase or decrease the arm height, press the button and pull up or push down on the arm.

#### Focus:

- To increase arm height, press up on the button located under the front of the arm pad and pull the arm up.
- To decrease arm height, press the button located under the front of the arm pad and push the arm down.

*Height-adjustable arms are available for Amplify, Focus, Glove Active, Knack, Non-Stop Heavy Duty, Novo, ReAlign, TR2, Vectra and Wit.*

# ARM STYLES AND ADJUSTMENTS

## Height-/Width-Adjustable | Multi-Adjustable

Height-/width-adjustable arms are sometimes called multi-adjustable arms on certain products. The arm adjusts up and down and side to side. This provides more “elbow room” for larger people. Best for basic task work.

### Instructions

These arms allow two adjustments:

- Height: See instructions in the height-adjustable section.
- Width: To adjust the arm width, push down on the lever located under the seat to unlock the width adjustment. Move the arm to the desired width and pull up on the lever to lock the arm in place.

Height-/width-adjustable arms are available for Focus, Glove Active, Knack, Non-Stop Heavy Duty, ReAlign and TR2.

Multi-adjustable arms are available for Amplify, Novo and Torsa.

## Height-Adjustable With Pivot

The arm adjusts up and down and 30° in or out. The arms can be turned in to facilitate writing or keyboarding and turned out for other tasks.

### Instructions

These arms allow two adjustments:

- Height: To increase or decrease the arm height, press the button.
- Pivot: The armrest has three positions: 30° in, center or 30° out. To pivot the arm, grasp the arm pad and move it to one of the three positions.

Height-adjustable arms with pivot are available for Glove Active, ReAlign and TR2.

## Height-/Width-Adjustable With Pivot | Multi-Adjustable (Height/Width) With Pivot

This arm adjusts up and down, side to side and 30° in or out.

### Instructions

These arms allow three adjustments:

- Height: The arm adjusts up or down. To increase or decrease the arm height, press the button.
- Width: The arm adjusts side to side. To adjust the arm width, push down on the lever located under the seat to unlock the width adjustment. Move the arm to the desired width and pull up on the lever to lock the arm in place.
- Pivot: The armrest has three positions: 30° in, center or 30° out (Non-Stop Heavy Duty pivots 15°). To pivot the arm, grasp the arm pad and move it to one of the three positions.

Height-/width-adjustable arms with pivot are available for Glove Active, Non-Stop Heavy Duty, ReAlign and TR2.

## Height-Adjustable Break-Away

The arm adjusts up or down and folds down 90°. The folding arm allows for fast and easy ingress and egress and is also great for users with large key rings, tool belts or other personal gear.

### Instructions

These arms allow two adjustments:

- Height: The arm adjusts up or down. To increase or decrease the arm height, press the button.
- Break-Away: To fold the arm back, push down on the lever located under the seat to unlock the arm and move the arm back. To return the arm to the original position pull the arm up until it locks into place.

Height-adjustable break-away arms with pivot are available for Non-Stop Heavy Duty.

# ARM STYLES AND ADJUSTMENTS

## Multi-Adjustable (Height/Width) Articulating

The articulating arm adjusts up and down and side to side while the arm pad pivots left and right.

*Non-Stop Heavy Duty offers a multi-adjustable articulating arm option.*

## Fully Adjustable (6-Way)

The six fully adjustable arm adjustments are arm height (up/down), arm pad depth (forward/back) and arm pad side to side (in/out). This ergonomic arm is good for users engaged in a variety of task applications.

### Instructions

These arms allow for three adjustments.

- Height: The arm adjusts up or down. To increase or decrease the arm height, press the button.
- Arm pad depth: The arm pad slides forward or back.
- Width: The arm adjusts side to side.

*Fully adjustable (6-way) arms with arm pad depth adjustment are available exclusively on Focus.*

## Fully Adjustable (6-Way)

The six fully adjustable arm adjustments are arm height (up/down), arm pad depth (forward/back) and pivot. This ergonomic arm is good for users engaged in a variety of task applications.

### Instructions

These arms allow for three adjustments.

- Height: The arm adjusts up or down. To increase or decrease the arm height, press the button.
- Arm pad depth: The arm pad slides forward or back.
- Pivot: The armrest has three positions: 25° in, center, or 25° out.

*Fully adjustable (6-way) arms with pivot are available on Sona and Prava.*

## Fully Adjustable (8-Way)

The 8-way fully adjustable arms go up/down for height adjustment while the arm pads go forward/back, in/out and pivot in/out for robust support. This all-encompassing arm style makes a perfect fit for today's workplace where broader work applications such as use of smartphones, tablets and other tech accessories are becoming the norm (and require complete forearm support). Pivoting of the arm pads also means that even the most petite of users can adjust accordingly for a more suitable fit.

### Instructions

These arms allow for four adjustments.

- Height: The arm goes up or down for height adjustment.
- Arm Pad Depth: The arm pad slides forward or backward.
- Arm Pad Lateral: The arm pad moves in and out. Not to be confused with the arm width adjustment where the entire arm moves.
- Arm Pad Pivot: The arm pad pivots in and out to accommodate various work application postures.

*Fully adjustable (8-way) arms available exclusively on Vectra.*

## Fully Multi-Adjustable (10-Way)

The 10-way arm adjustments are arm height, arm width, arm pad depth, arm pad side to side and pivot. This is an excellent ergonomic task chair for executives or workers.

### Instructions

These arms allow for five adjustments.

- Height: The arm adjusts up or down. To increase or decrease the arm height, press the button.
- Width: The arm adjusts side to side. To adjust the arm width, push down on the lever located under the seat to unlock the width adjustment. Move the arm to the desired width and pull up on the lever to lock the arm in place.
- Arm pad depth: The arm pad slides forward or back.
- Arm pad side to side: The arm pad slides from side to side. Not to be confused with the arm width adjustment where the entire arm moves.
- Pivot: The armrest has three positions: 30° in, center or 30° out (Non-Stop Heavy Duty pivots 15°). To pivot the arm, grasp the arm pad and move it to one of the three positions.

*Fully adjustable (10-way) arms available exclusively on Focus.*
